

VESPA Academy

For parents and carers

INTRODUCING VESPA

Confidence starts with a next step.

Supporting confidence, independence and effective learning - at school and at home.

Different students. Different strengths.

A useful next step for everyone.

Illustrative students from the VESPA website story.

A questionnaire. A conversation. A next step.

Students reflect on their learning, discuss feedback and set practical goals with support from school. Portal activities help students develop these habits independently between tutor conversations. At home, listen, ask questions and encourage one small change at a time.

Start with: “What would you like to improve this week?”

Follow with: “How can we help?”
